CATEGORY:

Whole House

Filtration System

PRODUCT DESCRIPTION

AUSTRALIAN OWNED & MANUFACTURED

The Premium whole-house water filtration system is an all-in-one solution for your water purification needs. Packed with seven (7) state-of-the-art filtration and purification components, each designed to tackle specific issues, impurities, contaminants, and harmful bacteria that can affect the quality of your water.

1. 5-Micron 20" Pleated Filter: Screens out visible impurities.
2. 1-Micron 20" Pleated Filter: Captures microscopic particles for enhanced purity.
3. Granulated Carbon 20" Filter: Removes chemical impurities and odours.
4. Coconut Carbon Block 20" Filter: Further improves taste and smell.
5. Ultraviolet Lamp Inactivates bacteria and viruses, ensuring safer water.
6. Heavy-Duty Magnetic Water Softener: Reduces water hardness, extending the lifespan of your appliances.
7. Pressure Reducing Valve (500 kPa): Protects tapware from leaks and damage caused by high water pressure.

FREESTANDING MOUNT

The Freestanding mount, available for purchase alongside the whole house filtration system, allows flexible positioning of your filtration unit in various locations on your property. Whether by your gate, in a garden bed, or near your mains water pipes, this mount provides sturdy support. Constructed for durability, it is designed to be fixed to a solid concrete pad for enhanced stability, ensuring your filtration system remains secure in any setting.

TECHNICAL DATA SPECIFICATION

Information	FSM
Weight (kg)	10
Warranty*	2 Years

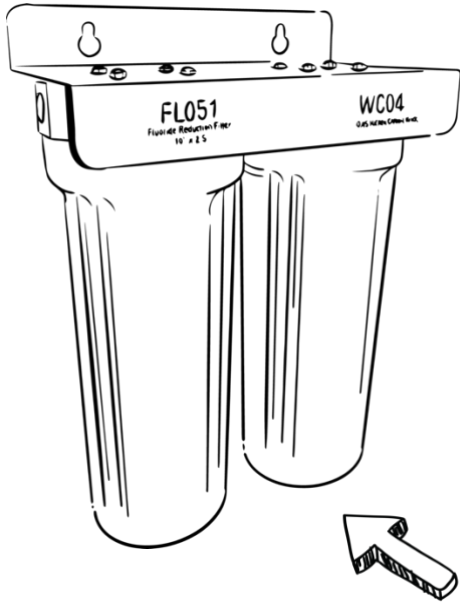

DIMENSIONS

Model Variants	Width (mm)	Height (mm)	Length (mm)
Premium 2000 - Excluding Freestanding Mount	200	840	1050
Premium 2000 - Including Freestanding Mount	360	1100	1150

PRODUCT APPLICATION

The Premium Whole-House Water Filtration System is our top recommendation for improving water quality. Designed to address common issues such as chlorine and sediment in rainwater or town water supplies, this system ensures cleaner, purer water throughout your home. Each system includes a complimentary QMP under-sink filtration unit, designed to remove fluoride and microplastics. Fluoride and Micro-Plastics. Installation is carried out by a licensed tradesperson, connecting the system to your home's main water inlet. Once installed, you'll experience significantly purer, softer, and better-tasting water.

KEY FEATURES

- The most comprehensive filtration system currently available on the market.
- Incoming water experiences a thorough 2-stage sediment & 2-stage taste & odour filtration process for superior water quality.
- X-Large ultraviolet (UV) lamp eliminates 99.9% of micro-organisms and bacteria.
- A chemical-free solution to soften hard water and reduce scale build-up in your home.
- Built-in isolation valve for quick and easy shut-off of the mains water supply.
- Optional rear support framework for convenient free-standing placement, allowing installation away from exterior walls.

Free QMP under sink filtration system to address Fluoride, Micro-Plastics.

Warranty*	2 years	2 years	2 years	2 years	2 years	2 years

* Warranty period includes body and workmanship. Consumables (Sediment/Carbon/Under sink filters, UV lamp globe) are not included. Warranty is only valid with evidence of installation being carried out by a qualified tradesman (i.e. Plumber/Electrician). Regular qualified consumable replacements must be carried out periodically every 12 months in order to qualify warranty period.

** The given flow rates are based on the UV lamp set to 30 mJ/cm² (Non-potable water supply). For a setting of 40 mJ/cm² (Potable water supply), expect flow rates of 27 lpm for the SLT40 model and 60 lpm for the SLT75 model. Non-UV lamp models may experience a variance in flow rate. Actual flow rates will depend on installation conditions, and water pressure.

Note: FSM = Freestanding mount, 40 = SLT40 UV Model, 75 = SLT75 Upgraded UV Model
